Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative proposed amending the pending claims to clearly indicate that the enhanced delivery of the drug is to "external tissue." Examiner stated such amendment would change the scope of the claims to the extent that further consideration may be required. however, Examiner pointed out that treating a vascular site with a drug and a composition containing gas vesicles and applying ultrasound; as have been taught in the cited art, would inherently cause delivery of the drug to the surrounding tissue, and may not render the claims patentable over the prior art .
